

## 5895 Rear Jet Extension Kit

Our Jet Extension Kit Part #5896 is an AED exclusive featuring a Stainless Steel Jet Extension that can be used with any standard float, eliminating the need to purchase a notched float. The Jet Extensions are made to be PRESS FIT onto your Holley Style Jet. With the ID of the jet extension being .305" and the average OD of the Jet being .310" this allows a press fit of .005". You will need to gently tap the Extension on using a hammer. The Extension has one Flat side the other round \*\*\*\*INSTALL WITH THE FLAT SIDE FACING UP OR TOWARDS THE VENT BAFFLE\*\*\*\* The Kit also includes 1 metering block gasket, 1 bowl gasket and 4 replacement bowl screw washers. Thank You for your purchase and if you have any questions please contact us at 804-271-9107 or [aedperformance@comcast.net](mailto:aedperformance@comcast.net).
